

PETER KIARIE

GRAPHIC DESIGNER | FRONT-END DEVELOPER

SUMMARY

Hello, my name is Peter, and I am a front-end developer with one year of experience building intuitive and engaging user interfaces. I specialize in developing responsive and mobile-first web applications using modern front-end technologies such as React, while learning React Native. I possess a profound understanding of HTML, CSS, and JavaScript and am constantly exploring new technologies and trends to remain current in the fast-paced world of web development.

WORK EXPERIENCE

- **Tessty Brands**
Front-End Developer
2023 | March - Present

The project was completed within a timeframe of two weeks, during which I successfully implemented a JavaScript menu selection specification section and integrated a WhatsApp customer response

- **Zaidi Movers**
Freelance Fron-End Developer
2022 - Present

I designed and developed a modern, visually appealing portfolio website that effectively showcases the business and enhances its visibility. The website effectively highlights the unique features of the business and helps position it on the map.

- **BOTLHALE AI**
Voice Over Artist
2021 | August (short term contract)

As a voice-over artist, I participated in the recording of audio data used for machine learning training on behalf of a startup based in South Africa. My contribution played a crucial role in the success of the project.

- **KBC KENYA**
Video Editor
2022 | August (short term contract)

I was a part of a team that undertook the video footage preservation project at the KBC transmission station. Our primary goal was to retouch and restore old historic film footage, which had been stored by the organization for a significant period. Our team utilized modern techniques and technologies to bring new life to the footage and ensure that it would be preserved for future generations to enjoy.

HOBBIES

Gaming Singing Audio-Production Sketching
